-- As Reported by Exporters

Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales.

EXPORT SALES REPORT

Comments on release of February 3, 1977 (based on reports from exporters for the week ending January 23, unless otherwise noted):

Wheat: Net sales activity was disappointing after last week's modest increase. Iran, Japan and Taiwan were the only notable buyers. Current marketing year (MY) sales to Israel were reduced as a result of contract adjustments. Sales for 1977/78 showed a minor decrease in spite of Israel's purchase of 22,400 MT of Hard Red Winter. Weekly exports continued in a slump.

Corn: Sales activity slackened after last week's surge, returning to the reduced pace of most recent weeks. Principal buyers included Japan and numerous European countries, all adding to existing balances. Activity to unknown destinations was brisk, featuring new sales, destination changes, cancellations and exports. Weekly exports fell after last week's modest increase. Worsening ice conditions on the rivers are seriously affecting barge movement of grain and could also affect the pace of grain exports.

Barley: Demand for U.S. barley continues strong. Consequently, the USDA export projection has been increased to 1.2 million MT. Sales activity was modest with new business about evenly split between West Germany and unknown destinations.

Grain Sorghum: Sales activity, up for the third consecutive week, was the heaviest yet this MY. Japan was the largest customer, adding over 122,000 MT to their earlier purchases, including 63,200 MT optional origin which were declared U.S. origin. The Netherlands was also active in the market increasing its total purchases by a third. Large sales to unknown destinations were also reported. The strong world demand for feed grains is reflected in grain sorghum as total sales already account for 80% of the USDA export projection.

Rice: Sales activity continued moderately heavy, buoyed by a good commercial demand. The most notable feature for the week was the assignment of the U.S. as the origin on 12,300 MT of optional origin medium or short grain rice to the USSR. Iran and Nigeria, both major customers for U.S. rice this year, continue to add to their total purchases. Haiti's purchase of 5,000 MT of long grain reflects a doubling in their total purchases to date.

Soybeans: Sales activity rose modestly with the EC and Japan being the major buyers. The USSR reduced its total purchases, as 25,000 MT was switched to other destinations. Sales of 105,000 MT to unknown destinations for the current MY were reported in the daily sales. Exports, though down from the previous week, continued moderately strong, with the EC, Japan and Spain the principal recipients.

Soybean Cake and Meal: Sales activity was the heaviest to date for this MY. Sales to unknown destinations accounted for nearly two-thirds of the new sales with Japan and The Netherlands taking small amounts. Destinations were reported for a number of sales which had been reported to unknown destinations. Exports were down slightly with the EC and Eastern Europe the major importers.

Cotton: Sales activity and exports continued at about last week's good level with increased sales to Japan, Indonesia and Korea accounting for most of the additional sales and Japan and Korea accounting for 56% of the week's exports.

Oats and Soybean Oil: Showed no significant activity.

1/ Includes contract tolerance adjustments. 2/ A separate purchase of a U.S. commodity from a foreign seller, not involved in a cancellation or buy-back of a previously reported sale. 3/ Includes decreases resulting from shifts in delivery period from one marketing year to another, changes from one commodity to another, "buy-backs" of all or part of a contract balance by mutual agreement, and unilateral cancellation by one party which could result in a contract dispute. 4/ Does not include exports for exporter's own account.

Data shown above may not add due to rounding.
